ABSTRACT

This is the second part of a two-part volume of Project Baseline's annual report on the status of vocational education for the 1974-75 period. It is a statistical almanac containing three major sections and an appendix. Section I contains the tables based on data collected in fiscal year 1975. These tables are divided into four groups: Tables 1-16 include enrollment figures, tables 17-20 concern completions and placements, tables 21-35 present expenditures, and tables 36 and 37 contain teacher and teacher education information. Tables 32-35 show part C and part D expenditures and Federal allocations. Section II (tables 38-72) includes tables based on data collected during the past five years. Comparisons are made between the years by States and by area of concern. The tables are arranged in four sections: Enrollment (tables 38-58), completions and placements (tables 59-62), Expenditures (tables 63-72), and teachers (table 72). Section III consists of miscellaneous tables (73-85). Table 73 depicts the purchasing power of vocational education expenditures over the past 13 years. Table 74 covers enrollment by sex and table 75 depicts enrollment by ethnic group. Table 76 is a 1-year table showing enrollments in special programs. Tables 77-85 give a breakout of enrollments by sex in each of the occupational areas and in special programs. (HD)

One-Year Tables
1974 - 1975

SECTION I

One-Year Tables 1974 - 1975

Section I contains the tables based on data collected in Fiscal Year 1975.

These tables are divided into four groups: Tables 1-16 include enrollment figures; Tables 17-20 concern completions and placements; Tables 21-35 present expenditures; and Tables 36 and 37 contain teacher and teacher education information.

The 1974-75 tables conform as closely as possible to the format of one-year tables used in the four previous Project Baseline Annual Reports. However, changes in the USOE reporting forms have necessitated deletion of some tables that appeared in Volumes 1, 2, and 3.

Four new tables (32-35) have been added this year showing Part C and Part D expenditures and Federal allocations.

Miscellaneous Tables

SECTION III

Miscellaneous Tables

Section III consists of miscellaneous tables (73-85).

Table 73 depicts the purchasing power of Vocational Education expenditures over the past thirteen years.

Due to changes in the OE reporting forms for FY 1975, enrollment by sex and ethnic group were available for this year. Table 74 covers enrollment by sex and Table 75 depicts enrollment by ethnic group.

Table 76 is a one-year table showing enrollments in special programs.

Tables 77-85 give a breakout of enrollments by sex in each of the occupational areas and in special programs.
